Professional Summary

Experienced Business Analyst with more than 22 years of success delivering software solutions within the financial technology industry. Proven expertise in Agile software development, Scrum methodologies, business process analysis, requirements gathering, stakeholder collaboration, and software implementation. Recognized for bridging the gap between business needs and technical teams to deliver reliable, customer-focused solutions.

Currently pursuing a Bachelor's degree in Game Development while expanding expertise in 3D content creation, digital asset pipelines, and interactive software development. Combines decades of enterprise software experience with modern technical and creative skills to contribute to innovative development teams.

Core Competencies

- Business Analysis
- Requirements Gathering & Documentation
- Agile Methodologies
- Scrum Framework
- Software Development Lifecycle (SDLC)
- Stakeholder Management
- Process Improvement
- Project Planning
- User Acceptance Testing (UAT)
- Banking Software Solutions
- Cross-Functional Team Collaboration
- Technical Documentation

- Risk Analysis
- Problem Solving
- Communication & Leadership

Technical Skills

Business & Development

- Agile Development
- Scrum (Certified Scrum Professional)
- Software Testing
- Requirements Analysis
- Business Process Mapping
- Experienced Building Documentation Using the Microsoft Suite of Services

3D & Game Development

- Blender
- ZBrush
- Substance Painter
- Houdini
- C++
- Git
- Github
- Visual Studio
- Object Oriented Programming
- Classes
- Functions
- Input Validation
- Debugging

- Version Control

Additional Skills

- Microsoft Office Suite
- Documentation & Reporting
- Technical Communication

Professional Experience

Business Analyst

Jack Henry & Associates
April 2004 – Present

- Partner with software developers, project managers, and stakeholders to define business requirements and deliver enterprise banking software solutions.
- Gather, analyze, and document functional and technical requirements for software enhancements and new features.
- Lead discussions between technical teams and business users to ensure accurate implementation of customer needs.
- Participate in Agile ceremonies including sprint planning, backlog refinement, daily stand-ups, sprint reviews, and retrospectives.
- Support Scrum-based development teams by clarifying requirements and assisting with prioritization.
- Perform business process analysis to identify opportunities for increased efficiency and improved customer experience.
- Coordinate software testing efforts, including User Acceptance Testing (UAT), to validate functionality before deployment.
- Assist in issue investigation, root cause analysis, and solution validation.
- Build long-term relationships with financial institutions by providing ongoing software support and consultation.
- Contribute to the successful delivery of numerous enterprise software initiatives over a 22-year career.

Education

Bachelor of Science – Game Development *(In Progress)*

Full Sail University

Expected Graduation: 2028

Associate of Science – Computer Science

Bevill State Community College

Certifications

- Scrum Certification

Professional Highlights

- More than 22 years of experience in enterprise financial software.
- Extensive background working within Agile and Scrum development environments.
- Experienced collaborating with developers, QA teams, project managers, and executive stakeholders.
- Strong analytical, communication, and problem-solving abilities.
- Continuing education focused on software engineering, game development, and modern 3D production pipelines.

Projects

- **Project Title:** First Fantasy: The Dark Continent
- **Description:** First Fantasy: The Dark Continent is a turn-based text adventure taking place in the fictional world of Akantha. Which is based off African religions, folklore, and cryptids. It is heavily influenced by games like Final Fantasy. This was my first portfolio project completed at Full Sail.
- **Technologies Used:** Visual Studio, Git, GitHub
- **Repository:** https://github.com/DT-Digital2026/COS119-0-FirstFantasy.git
